

Communication App: Text Notification Permission Form - 8

JNP will be using 2 communication apps for parent communication.

- 1. Call Multiplier** – direct message to cell phones for JNP school closures due to snowstorms or other emergencies.
- 2. Bright Wheel** – to notify parent of messages going to their Bright Wheel account.

I also understand that the cell phone numbers that appear are generated by these apps and are not the personal cell phone of any JNP staff. You will not be able to respond to the text notification. If you have any questions they will need to be addressed to JNP by email, phone or in person.

(parent/guardian signature)

(date)

I give JNP permission to send SMS messages via Call Multiplier as outlined above.

1. _____

(person receiving text message)

(Cell phone number)
